

AUGUSTINE EYONGTARH BESONG

FULL STACK SOFTWARE DEVELOPER

eyongtarh@gmail.com | [linkedin.com/in/a-eyongtarh-besong-22ab9b281](https://www.linkedin.com/in/a-eyongtarh-besong-22ab9b281)

PROFESSIONAL SUMMARY

Full Stack Software Developer with hands-on experience building scalable web applications, data automation systems, and e-commerce platforms using Python, Django, JavaScript, PostgreSQL, HTML, and CSS. Skilled in cloud deployment, database design, API integration, automated testing, and business process automation. Combines a strong technical background with entrepreneurial, consulting, and project management experience to deliver practical, user-focused solutions.

TECHNICAL SKILLS

- Languages: Python, JavaScript, HTML5, CSS3, SQL
- Frameworks: Django, Flask, React, jQuery
- Databases: PostgreSQL, SQL, NoSQL
- Tools: Git, GitHub, Heroku, AWS S3, Stripe, Google Sheets API, Automated Testing
- Practices: Responsive Design, Authentication and Authorisation, RESTful Development, Agile Development

PROJECTS

Ekpaw-Spices

- GitHub: <https://github.com/Eyongtarh/Ekpaw-Spices.git>
- Developed a Python data automation tool that tracks daily spice sales and automatically calculates revenue, costs, and profit/loss. Integrated Google Sheets for cloud-based data management and reporting, with input validation, error handling, and formatted data visualisation. Deployed on Heroku.

Riders-Club-Project

- GitHub: <https://github.com/Eyongtarh/Riders-Club-Project.git>
- Engineered a training booking platform for cyclists and motorcyclists using Django, PostgreSQL, HTML, CSS, and JavaScript. Features include user authentication, training session booking and management, slot availability validation, contact form functionality, and responsive design. Deployed on Heroku.

Tarh-Tastyhub

- GitHub: <https://github.com/Eyongtarh/Tarh-Tastyhub.git>
- Built a full-stack food ordering and restaurant marketplace platform using Django, PostgreSQL, Stripe, and AWS S3. Features include user authentication, menu browsing, order tracking, secure payments, email notifications, delivery management, and a role-based admin dashboard. Deployed on Heroku.
